

# Riptide<sup>®</sup>

For fitness, relaxation and fun

For Fitness  
Relaxation  
and Fun

**SWIM SPA**

Easy Life Pro Swim Series

Treat yourself to a new, healthier lifestyle. You deserve it!

**Be yourself**

Get healthy in the convenience and privacy of your own garden. The swim spa gives you a low impact, full body workout that builds muscle, increases endurance and burns calories.

**Be together**

Create unforgettable moments with your loved ones as you immerse yourselves in the water's comforting warmth. The swim spa offers a private and secure environment to unwind, release stress, and engage in quality family time.

**Be outside**

Pause and bask in the beauty of stunning sunsets, starry nights, falling snow, changing leaves, and more. You have a private retreat with a swim spa just steps away from your door. Surrounded by nature, you can fully appreciate the captivating scenery we often overlook.

# Ingenious design for maximum comfort

## Experience Freedom in Every Stroke

2.35m width swim spa provides a more spacious swimming area, allowing for a more comfortable and natural swimming experience.

## Extra Deep

With a depth of 1.45m, an extra deep swim spa provides a more realistic and challenging swimming environment.

## Innovative design for extended swimming area

A more spacious and continuous swimming area, whether you swim competitively or are interested in building endurance, a Riptide Spa puts your goals within reach.

## Swim line

This line contrasts for easy positioning in the swim stream. Made from durable EVA resin, it stays flexible in cold temps, offers foot protection, resists aging and ozone, and won't peel.

# Unleash your best swimming performance

Riptide's revolutionary patented 3 inch turbo swim jets provide a powerful yet smooth flow, for an unparalleled swimming experience.

Correct jet positioning is crucial, low or wide jets just waste water flow. Our swim jets target the shoulders and chest to create maximum balance.

## Patented 3-inch power flow swim jets

Indulge in a truly professional quality swimming experience with the very best swim jets on the market.

- Revolutionary honeycomb design, which is different to every other direct injection jet on the market. This allows a more uniform flow pattern without any vortex turbulence.
- Power flow swim jets for targeted resistance powered by high flow pumps, allowing maximum smooth water flow.
- Correct jet positioning is crucial. Our swim jets target the shoulders and chest for maximum resistance.

Swim at your own pace

### Quickwater professional swimming training system

Unleash the experience of a five-star swimming pool. Unlike any other swim spa on the market, Our new inverter system allows us to use 3.5hp variable speed pumps and a 3" water jet pipe which can deliver up to 20,000 litres of water per minute. This results in saving up to a staggering 70% on electricity cost. Using this technology allows us to deliver a smoother flow of water without any white water waves, at a fraction of the cost of a conventional swim spa.

### Adjustable speed control panel

With 10 levels of adjustable current strength, everyone can find their own comfortable swimming speed, whether you're a novice or a professional athlete!

\*Available on Pro Premium model only.

# Creating the perfect massage

## Point map massage jet layout

Riptide combine precision massage and a scientific seating layout to offer the proven benefits of hydrotherapy and the stimulation provided by hydrotherapy massage - using targeted water jets to loosen muscles, stimulate blood flow and create a total body feeling of wellness.

## Unleash surging force

Elevate your hydrotherapy experience with our cutting-edge high-power massage pumps. Delivering a powerful yet soothing hydrotherapy experience via an array of adjustable stainless steel jets.

## Diverse jet combination

Different jet configurations on each seat provide a varied and targeted massage for different muscle groups.

### Full body massage recliner

Experience the relaxation of your entire body all at once - from your neck to your toes.

### Accu-pressure back massage

A number of accu-pressure jets are used in one seat to precisely target pressure points in the back and lower neck.

## Customise Your Own Massage Experience

1. Precision-crafted stainless steel hydrotherapy jets.
2. Performing various actions, adjust each jet individually for a great targeted massage.

2.5 Inch Jet Internal-Directional

3 Inch Jet Single-Spin

4 Inch Jet Single-Spin

5 Inch Jet Single-Spin

# Energy efficiency far exceeding CEC standards

## 5-Stage Platinum Lock Insulation System

- 

**1 High density foam cover**  
High-quality hot tub cover with high density core foam and aluminium reinforced centre supports. Premium vinyl cover which is durable and easy clean, supplied with 4 safety locking straps and easy lifting handles.
- 

**2 Full Foam Internal Insulation**  
Full foam insulation is the most energy efficient insulation solution on the market, creating a formidable thermal barrier.
- 

**3 Thermo shield side skirts**  
Thermo shield aluminium side skirts are constructed from 2 layers of aluminium and 1 layer of plastic, finished in a stylish, weatherproof grey woodgrain finish. This not only gives a stylish look, but is stronger and more energy efficient.
- 

**4 Platinum Lock Insulation Material**  
This highly flexible insulation leads the way in heat retention and is made up of 25mm high density sponge foam and 1mm aluminium heat shield.
- 

**5 Solid plastic base**  
A solid plastic base creates not only a strong support system but also helps with heat loss and keeps rodents and pests at bay.

\*The CEC energy test is a necessary certification for SPA products in California, USA.

**Test Conditions:**

1. Fill tank with water at 15cm from top or center of skimmer spacing.
  2. Use thermostat and circulation pump to heat water to  $39 \pm 1 \text{ }^\circ\text{C}$ .
  3. Stable water temperature, ambient temp at  $17 \text{ }^\circ\text{C}$ , test for 72 hours.
- Calculate hourly power consumption using:  
V: U.S. gallons (1 gallon = 3.7854 liters)  
Pmax: max power consumption per hour in watts.

**Test Method:**

Keep thermostat and circulation pump on, unplug other loads. Set low recirculation cycle, cover with thermal cover. Maintain water temp for 4 hours, note meter power. After room temp drops to CEC standard, record current meter power. After 72 hours, record power again. Compare actual power with theoretical value to check compliance.

Test Note: Theoretical CEC value is affected by water injected into prototype, leading to variations due to human errors.

# Enjoy unrivalled water purity

Our efficient antibacterial filtration system provides crystal clear, food-grade water.

## Ozone mixing chamber vastly improves bacteria reduction

Unlike other hot tub brands that simply pump ozone into the middle of the spa, affecting just a small portion of the water near the outlet, Riptide use a proprietary mixing chamber to pre-treat the water with ozone before adding it to the spa. This greatly increases the efficiency of the ozone, with a massive proven reduction in free-floating bacteria and germs.

### High efficiency filtration

Highly efficient blue filters quickly remove debris from your spa, ensuring a safe and clean experience is always ready for you.

### Food-grade water quality

Enjoy food-grade water quality with NSF food-grade hoses, ensuring that the water meets drinking standards and protects you and your family from harmful chemicals.

### Energy-efficient

Powered by a high-performance pump, our system ensures low energy consumption and efficient energy-saving, allowing you to relax and enjoy your spa worry-free.

# Easy control at your fingertips

With 18 years of experience, the SPATECH control system offers a new world of possibilities for spa users.

The state-of-the-art hot tub pack features integrated WiFi connectivity, meaning easy and convenient control of your spa, whether you're at home or away.

- High class warranty up to 5 years
- Power saving monitoring
- Water free touchscreen
- Engineer friendly
- WiFi controller
- Heat pump compatible\*
- Smartspa TM

The new fully-featured TP10 system from SPATECH includes all the premium features you'd expect, and offers the perfect balance between style and functionality.

6 mode settings let you take full advantage of your heat pump to optimise your savings: Eco Heat, Smart Heat, Eco Auto, Smart Auto, Cool, and Electric.

Thanks to its simple and efficient configuration, the bright LCD touchscreen keypad is intuitive, user friendly, and simple to operate

Customisable maintenance reminders can be set to remind you to perform tasks such as filter cleaning and water changes when needed

4 x Preset modes allow you to choose the best suited to your spa needs and maximise efficiency and reduce running costs: Standard, energy-saving, vacation and sleep mode.

Play your favourite music directly from your spa with a high-quality, integrated Bluetooth stereo system

Integrated WiFi gives you full control of your spa via a convenient smartphone app, whether you're at home or away

### Full touchscreen control

Choose your favourite tracks or playlists from the intuitive touchscreen

## Lose yourself in music with a premium integrated audio system

### Includes hidden transducer speakers & subwoofer

Unlike traditional speakers that produce sound waves that travel through the air to reach our ears, our transducer speakers are attached discretely underneath the shell, and are designed to transmit sound waves directly through the water.

This means that you won't just hear your music, but you'll actually feel it too!

## Joint-friendly water sports with a variety of accessories

### Exercise Handrail

Great for kids, less experienced swimmers and aerobic training.

### Swim Pole (optional)

The swim pole assists you in staying afloat, helps keep you in a straight lane, adds resistance if required and aids you to become a more efficient and faster swimmer. Whether you're a novice or competitive swimmer the swim pole can help you to improve your swim.

### Exercise band (optional)

A variety of exercises can be performed for different muscle groups and fitness levels to help improve flexibility mobility and balance.

# Easy Life Pro 4.4

## SPECIFICATION

Dimensions	4430 x 2350 x 1540 mm
Ergonomic seating	3 seats + 1 lounger
Water capacity	6783 L
Dry weight	1075 Kg
Power supply	45 Amp

## MASSAGE SYSTEM

Massage jets	35
Massage wall	x

## WATER CARE SYSTEM

Filtration Pump	1 x 1HP High flow filtration pump

# Discover the healing power and benefits of Hydrotherapy

## **Stress Relief**

Soaking in a spa helps relax muscles, reduce tension, and alleviate stress. The warm water and massaging jets can calm both the body and mind.

## **Muscle Relaxation**

The combination of heat, buoyancy, and hydrotherapy jets can help soothe sore muscles, ease muscle tension, and improve flexibility.

## **Improved Sleep**

Using a spa before bedtime can promote better sleep by helping the body relax and inducing a deeper, more restful sleep cycle.

## **Stimulated Healing**

The combination of heat and hydrotherapy can accelerate healing processes by improving circulation and reducing inflammation.

## **Lower Blood Pressure**

Regular use of a spa may help lower blood pressure levels, especially when combined with relaxation techniques.

## **Better Circulation**

The heat from a spa dilates blood vessels, leading to improved circulation, which can benefit heart health and overall cardiovascular function.

## **Pain Relief**

Spa hydrotherapy can aid in reducing chronic pain conditions such as arthritis, fibromyalgia, and muscle soreness by increasing blood flow and releasing endorphins, the body's natural painkillers.

## **Weight Management**

While not a direct weight loss tool, using a spa can complement weight management efforts by aiding in relaxation, potentially reducing stress-related eating, and promoting better sleep.

### Why Riptide?

Riptide is a premium international brand sold across the world. At Riptide, our designs are built with you in mind. The luxurious design and superior performance of your Riptide will provide you with wide range of benefits, from our Customer Support Commitment to our Easy Care Technology and fully guaranteed warranty.

### What sets Riptide apart?

Riptide stands head and shoulders above the competition due to its relentless pursuit of perfection and unwavering focus on premium quality and exceptional after-sales service. When you use a Riptide product, you'll realise why it's in a class by itself.

# Riptide®

### Exceptional after sales service

We offer robust logistics, storage, and transportation services in Australia, UK, France, Netherlands, Austria, and more. Our dedicated team is committed to providing ongoing support and guidance, ensuring your satisfaction and peace of mind well beyond your purchase.

### Manufactured excellence

Produced by Crystal Island, Riptide along with other major world renowned spa brands originate from their state of the art 150,000m<sup>2</sup> facility. This facility delivers up to 300,000 spas and swim spas to approximately 46 countries. As the largest spa production facility globally, coupled with Riptide's local support network, it ensures the purchase of the best possible product.
